

## The Beadery® Ornapik™ Butterfly

Use the attached pattern to Ornapik™ by number and create a colorful butterfly. This design will work with the colors in either the hot multi (815SV077) or circus multi (815SV289) value packs.

### Materials needed:

Ornapiks™

1" thick foam base

---

### Instructions:

**Step 1:** Cut out the butterfly pattern on the next page.

**Step 2:** Place the pattern on a 1" thick piece of foam. This pattern is made to fit on a 6" or larger piece.

**Step 3:** Push an Ornapik™ through each numbered spot on the pattern. The numbers indicate which color belongs in each spot.

Pattern #	Color	Qty Needed
1	Red	61
2	Orange	49
3	Yellow	52
4	Green	57
5	Blue	63
6	Purple	162

**Step 4:** You may want to add some Ornapiks™ to create antennae or other decorations after the pattern is full.

---

### Ornapik™ Tips:

- You will not need any glue to hold the pattern. The Ornapik™ will hold it in place.
- If you insert an Ornapik™ and need to move it, they are easily removed and repositioned.
- It is easiest to start filling the pattern in a straight line. This will create a good nesting effect to fill the pattern completely.
- A background picture can be printed out and placed on the foam beneath the pattern before starting to fill in the pattern.
- Have fun with colors. You can use this pattern as a guide and create your own designs and patterns.
