Step 3: Bend the chenille stem ends up forming a bowl shape keeping the beads together.

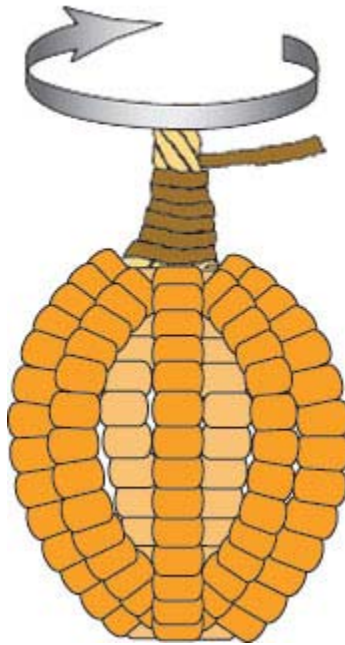

Step 4: Twist the chenille stems together tightly to secure the beads and form a ball shape.

Step 5: Trim the excess chenille to even the ends.

Step 6: Tightly wrap the brown chenille stem around the twisted chenille stems until they are completely covered. Trim off any excess chenille to finish the stem.

Step 7: Center the green chenille stem around the base of the stem and twist once. Wrap the ends around a pen or pencil to create a curly vine.
